2014/6457/P	Jason Fernandes	Flat 7 Weech Hall Fortune Green Road	09/11/2014 17:46:56	OBJ	<p>I strongly object to the application. The applicant has failed to consult owners/tenants in the proper fashion regarding the major works. The applicant has also failed to consult on the increased future annual costs relating to the lifts. Further, there is a dearth of information regarding the plans.</p> <p>I purchased my flat because of the views from my flat, the natural light that floods into my second bedroom and kitchen, the absence of a lift (and the related costs) and the quietness of the flat because of its location in the block. All these features would be compromised in the proposed application. The rear of the block receives about 75% of the sunshine time.</p> <p>In addition, due to the extensive nature of the proposed works, during construction there would be a very large amount of unwelcome noise and loss of privacy for all those living in the block.</p> <p>I have other objections including the severe impairment of health and safety, in particular the designated fire escape route (especially important to residents on the higher floors) and the creation of an unwelcome eyesore for those living in Weech Hall and the immediate vicinity.</p>
