

FOR THE ATTENTION OF CAMDEN COUNCIL/EIMEAR HEAVEY

REF APPLICATION : 2014/6207/P

I strongly object to the proposals for change of use to Leeder House. We already have massive parking issues and this will only increase the problems.

In addition I object most strongly to proposals for the building itself as these will impact directly on my property ; I am at 109 Regents Park Road. The plans will completely block out light to my windows and a total loss of privacy as the windows will overlook my house directly into my windows and my terrace. There is considerable opposition to the property development and I hope Camden Council is able to listen and take on board the objections.

I would like to request that someone from the planning department comes to my property to view exactly the impact the Leeder House proposal will have.

I would like to have a response to my email and to have my objections noted.

Please confirm receipt of this email.
