2014/6291/P	Celia Goreham	71 Patshull Road London Nw5 2LE	19/11/2014 15:36:08	COMMNT	I strongly object to this use of a flat roof as it will cause considerable noise in a very residential area and therefor cause considerable noise and potentially smoking pollution to the residence of Highstone Mansions whose overlook this quiet area .This also has the potential to harm the view from the flats as the open view currently available makes a positive contribution to those who live in the flats in Highstone Mansion .
2014/6291/P	Lucia Soto & Hugo Cornejo	Flat 5 Highstone Mansions 84 Camden Road NW19DY	18/11/2014 22:07:43	OBJ	<p>Dear Council,</p> <p>My partner and I oppose to this Planning Application (2014/6291/P).</p> <p>The arrangement of the buildings around the courtyard amplifies every sound, even when someone is having their birthday party is a nuisance, so we can easily imagine how a roof terrace full of customers every day and night would impact our lives, as neighbours whose flats face the gardens.</p> <p>In our case, every window in our flat faces the garden, we are completely exposed. When there is hassle outside there is no way we can avoid it, exactly the same happens with our privacy, our whole flat is entirely visible from the gardens and a timber fence covered with plants is not going to protect us whatsoever.</p> <p>Thanks for your time.</p>
