Name..... FRANKLIN LACUNMANSINGH

Address..... 2 ROCHESTER MEWS LONDON, NW1 9JB

Planning application number..... APPLICATION REF 2014/5510/P

Planning application address..... 16 ROCHESTER MEWS, LONDON, NW1 9JB

I support the application (please state reasons below)
I object to the application (please state reasons below)

Your comments

① We at 2 Rochester Mews NW1 9JB fear that the proposed building will cause us to loose light from daylight and the sun. There is also the issue of privacy of myself with other neighbours.

② During the building work there would be excessive noise nuisance with drilling and heavy earth moving equipment. At quiet times, my wife is a night worker and she will be required to sleep during the day. As my property is nearest to the building site, we will be most affected.

Heavy Equipment will create strong vibrations which will cause structural damage to my property.

Heavy Equipment will cause large amount of noise dust and inconvenience as well as parking restriction causing problems with access to the house.

Apart from other unplanned issues between and during the building period, I strongly object to the applications.

I trust that the above concerns will be considered by Camden Council planning officers.
