- Weech Hall is a well proportioned Art Deco building with lovely art deco staircases at the rear which should not be changed or altered, to preserve perfect proportions. It makes a statement in it's own right.
- It stands at the gateway to a conservation area - any alterations will impact on the area.
- Our building as it is to the rear of Weech Hall will lose sunlight & daylight if the proposed level is raised. We will lose privacy & be overlooked.
- The rear of Weech Hall is an emergency access so where will builders vehicles deliver materials & collecting waste use? ^{at the} The noise, dust & dirt will affect all residents in Weech Hall & those of us at the rear of the property - some of whom already suffer chest problems which this will exacerbate. ^{increase it} I have told Warden to reduce pollution with increase it.
- Vehicles will add to noise & pollution in a residential street.
- Major routeway Fortune Green Road & Finchley Road are already overused - builder vehicles & additional traffic from flats will add to this. Parking is also a short supply in the area.
- Fortune Green Road is used by children, encouraged to walk to school, of which are two primary & 3 primary schools, which will add to pollution with more vehicles coming & going from the site.

• Increase in type of land use - there are already a glut of flats in the area. Opposite - top of the range flats are taking years to sell. We do not need more.

We have not been fully informed regarding these proposals as no outline plans are included, however I object in principle as a top floor flat resident. This is of concern to me, in particular the change to rear staircase as this is a fire escape it could present serious problems. This is a small Art Deco style block bordering a conservation area, a any change will be vigorously opposed.

Flat 16.

London, 18 November 2014

Name: Hans Jacob Feder & Line Schjolden
Address: 13 Weech Road, London, NW6 1DL

Planning application number: 2014/6457/P
Planning application address: Weech Hall, Fortune Green Road, London, NW6 1DJ

Objections to the above planning application:

We are writing to let you know that we strongly object to the proposed planning application 2014/6457/P, for the following reasons:

- Adding an additional floor to Weech Hall would severely reduce the amount of daylight to our property as well as to the other surrounding properties.
- The additional floor would also reduce our privacy with more direct insight into our garden and our south facing rooms.
- Adding an additional floor to the already tallest building in the area would further significantly alter the aesthetics of the local community and would stand out as an anomaly.

We also have serious concerns with respect to the alteration to the rear external stairs facing our property, in connection with the provision of two elevators:

- We are concerned the use of such elevators would cause noise due to the mechanical operation and sound signalling used in elevators.
- We are also concerned about the aesthetic of such a major alteration and would like to see the proposed design.

In general, we are also concerned about the impact of the construction work, which undoubtedly would lead to high levels of noise, increased congestion and dust. With the major construction currently underway on Finchley Road, opposite Weech Road, we would find ourselves caught in the middle of two large building projects. With two small children, we worry about the general impact of this on their living conditions.

Last, talking to the neighbours in our area that would be affected by the proposed building project, we are surprised that most of them have not been notified, despite their proximity to the site. We believe that residents on Ingham Road, Fortune Green Road and Weech Road all need to be notified of this planning application.

Sincerely yours,

Hans Jacob Feder

Line Schjolden
