2014/6883/P	Marchmont Association	62c Marchmont Street London WC1N 1AB	20/11/2014 17:57:09	OBJ	The Marchmont Association is concerned about the negative impact the proposed roller shutters have on this historic street, with the buildings on the south side (including No. 9) dating back to the 1790s. The roller shutters create an impression of a locality under seige, which is detrimental to the appearance and feel of the conservation area. Whilst being sympathetic to the applicant's stated difficulties with break-ins, we would expect them to install standard security measures which do not have such a negative visual impact.
