Dear Sir/Madam

5 DAY NOTICE OF INTENT

Re: 020775 URGENT Tree work at Coram Community Campus, 49 Mecklenburgh Square, WC1N 2QA

Please add the Ref No: 020775 on all correspondence.

This letter is to inform you of our notice of intent to carry out urgent tree works on **T25, T26 and T13**. **T25** and **T26** are 2x XXL London Plane Trees and **T13** is a XL London Plane.

Some days ago a very large limb fell during the night from **T26**. This limb struck an adjacent building but fortunately caused no damage. Since this time **T25** has been making creaking sounds of an ominous nature. In addition to this both trees have canopies which are too low over the adjacent building site and these branches are interfering with the construction work. **T13** also has branches obstructing the construction work.

This work is very urgent as there may well be further dangerous limbs overhanging the busy driveway and building site.

All relevant documentation has been attached to this letter via email including what tree work we intend to do on all three trees. If you need any additional information please feel free to contact me.

Yours sincerely

Bradley Holden
