Ref - Planning Application - 2014/6719/T

Good morning,

I would like to submit a comment in regard to the felling of the tree in this planning application. I whole heartedly support this application as the tree is causing the wall adjacent to it to become unstable and if allowed to continue the wall will fall down. I would greatly prefer for both aesthetic and safety reasons that the wall remains standing and stable.

If you would like any further comments then please contact me on the number below.

regards

Michael (Owner of 17 Grove Terrace)
