- 3 The development hereby permitted shall be carried out in accordance with the following approved plans [Prefix: 6133/17/B, 18/A, 19/A, 25.

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts which cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Argyle Street WC1H 8EQ, (tel: 020-7974 6941).
- 2 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Compliance and Enforcement team [Regulatory Services], Camden Town Hall, Argyle Street, WC1H 8EQ (Tel. No. 020 7974 4444 or on the website <http://www.camden.gov.uk/ccm/content/contacts/council-contacts/environment/contact-the-environmental-health-team.en> or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.
- 3 Reasons for granting permission:

The proposed external alterations to the ground floor facade and replacement of fourth floor extension are subordinate [in scale and location] to the host building and an appropriate design by virtue of their impact on the appearance of the existing building. The external alterations will employ materials that are in keeping with the conservation area and the development will return this building to use, thereby preserving and enhancing the character and appearance of the conservation area. Due to its size and location, the replacement fourth floor level would not significantly harm the amenity of any adjoining residential occupiers in terms of loss of light, outlook, enclosure or privacy.

Whilst the development will have some impact, in terms of alterations to the

traditional fenestration pattern at ground floor level and a minimal increase in height to the fourth floor extension (0.1m), such works are not considered harmful to the character or appearance of the host building, street scene or the Fitzroy Square Conservation Area because the proposed alterations and increase in height are minimal.

No objections have been received and the sites' planning history were taken into account when coming to this decision.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011; and paragraphs 14, 17, 56 -66 and 126-141 of the National Planning Policy Framework.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
