2014/6379/P	samantha taylor	Flat 1 179 Gloucester Avenue London NW1 8LA	24/11/2014 11:10:38	JUST	I live in the basement flat at 179 Gloucester Avenue. I am concerned that there is no clarity as to the duration and disruption of the work and the effect on my property and garden given that the owners have written separately requesting approval of other substantial work to the foundations of 177. Why are the moer substantial works not included in the planning permission and why are the works are presented as separate cases when surely they need to be considered in context with each other. The architects/surveyors for 177 are RD&D ASSOCIATES 22 Norrice Lea N2 0RE
