Planning application address... 177 Gloucester Ave, NSW181A

- I support the application (please state reasons below)
- I object to the application (please state reasons below)

Your comments

I have no particular objection to the windows and doors mentioned. However as a resident of the adjoining building we have received notice that the proposed works to 177 include excavation and development to this basement area. I object to this on the grounds that it may negatively affect our property and would like to know why this is not mentioned in the planning application. This work could damage the foundations and the council should have made us aware of this proposed work.

Please continue on extra sheets if you wish
