For the attention of Sally Shepherd

Dear Ms Shepherd

I would like to again express my concerns about this development.

I live locally and frequently pass this site when shopping, visiting the nature reserve near by and visiting the tennis club next to it.
The revised design still creates an over massing of the site and I still hope that permission to build it will not be approved.

If the construction goes ahead, it would have a considerable affect on 'access' while the construction takes place and I use this area frequently. It worries me where lorries etc would stand – many young children for example use the facilities of the tennis club and it is important for children that this facility continues to be offered but with machinery and lorries close this could present a danger.

I reiterate that I want to object most strongly to the proposed building.

M.J.Banes
