2014/6227/P	Gillian Mosely	36a Lambs Conduit Street	25/11/2014 13:39:00	COMNOT	<p>I am the freeholder at 36 Lambs Conduit Street. This is both my residence and my office. There is also another residential unit above my flat.</p> <p>I am deeply concerned about the potential noise levels this unit will involve.</p> <p>17-21 Emerald Street backs directly onto my property and these together with a handful of neighbouring properties form an echo chamber.</p> <p>When I looked at the noise assessment report this does not appear to have been taken into consideration.</p> <p>It also looks like the unit they propose to install is considerably noisier than their target decibel level.</p> <p>I trust that you will consider these points carefully and ask for any appropriate further measurements.</p> <p>With thanks</p>
