Subject: 2014/6457/P-

To whom it may concern:

I have recently learned of this planning application and am surprised that as a neighbour I was not consulted prior to the comments deadline of 3 days ago.

This building directly overlooks the back of my house and garden and the proposal for an additional floor would directly impact my late afternoon/evening sunlight.

In light of this I am opposed to the application and wish to also register my concern at not having been consulted.

Yours faithfully,
James Taylor
