

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2014/6640/P	Julie Berk	52 Kentish Town Rd	27/11/2014 09:42:12	INT	<p>I am concerned about the wall at the rear of the garden which forms the boundary with my garden. I would like to ensure its integrity.</p> <p>I am quite concerned about these modern extensions at the back of period properties in this area. No. 13 Jeffrey's St had extensive works going on for about 2 years. It was quite disruptive and left very little garden at all.</p> <p>I would not like this new structure to be any closer than the current one to my garden wall.</p> <p>I do not see any mention of it in the application but I am concerned about the boiler outlet. The new one at 13 Jeffrey's St blows right into my garden if the wind is right. I didn't see anything about this in that application either. (The outlet from 11 Jeffrey's St is even worse.)</p>
