The Fruit Bowl serves the community and has been a valuable and rare asset to the High Street for the past 13 years. The owners work long hours and are a unique part of the Kentish Town neighbourhood. For TfL to allow their space to be taken over by the large restaurant chain Wahaca, to make more money, and more Council Tax for Camden, is nothing more than a gross affront to the lease holders of the Fruit Bowl and to our community. There are 27 restaurants and take-away outlets within two hundred yards of The Fruit Bowl and we do not need another large junk food outlet to downgrade our neighbourhood. The noise and disruption that it will also cause to the neighbouring flats will be enormous. I request that Camden Council refuse this application to The Wahaca chain and also for a drinks licence and the eviction of the Fruit Bowl. They should consider the wishes of the constituents of Kentish town first rather than a Mexican food chain.
