2014/7276/P	laura Jacobs	65B Parliament Hill Mansions Lissenden Gardens NW5 1NB NW5 1NB NW5 1NB	02/12/2014 07:49:45 INT		I can see this property's garden from my balcony and it is very much part of the view. I am concerned that this extension might be bigger and more ostentatious than the existing modest extension. Other gardens do not have a flashy extension. These are unique Edwardian buildings dating from 1906 and listed. This is not a house but an estate flat in a highly built up area. I would like to see the designs and know the dimensions. Perhaps the applicant could show me what she intends to do. As a neighbour I would expect nothing less.
