Dear

Planning application number: 2014/6544/P

Planning Application Address:
9 Grange Gardens
London NW3 7XG

The houses in Grange Gardens form a composite development , well balanced architecturally. 9 Grange Gardens and Heath Park Gardens are close together and this proposal to enlarge no 9 Grange Gardens, would alter the external appearance by taking away external space, blocking light and , I object as people in this proposed extension would be able to look through windows into interiors of Heath Park Gardens. The proposed extension to enlarge no. 9 would be detrimental to a leafy aspect which has always been important to all Hampstead dwellings. This proposal would destroy the privacy aspect regarding all adjacent buildings.

These extension proposals are totally unsuitable, spoil the exterior design of grange gardens, detrimental to the character and landscape and a larger building would increase noise levels, and is out of character with the street. This application for planning permission should not be permitted to go ahead. I am completely against the proposals and would like to state my objection to this application to extend no. 9 Grange Gardens.

Thank you for your attention,

Mrs Linda Tanner
Flat E Heath Park Gardens

Re: 9 Grange Gardens NW3 7XG

2 December 2014

I have concerns about this application for the proposed 1st floor extension and infill link and rear extension. This will cause that property to become too close to the property of Heath Park Gardens and reduce the privacy that currently exists. There seems no reason to allow the extent of this additional development which would then create a much larger property which wasn't the purpose when originally built. The flat owners in our building will suffer intrusion of privacy and reduction of the existing amenities and it would be detrimental to the gardens and the trees and bushes.

Please acknowledge receiving this email.

Yours sincerely

Mr N Shulman
