11. Foul Sewage	
Please state how foul sewage is to be disposed of:	12. Assessment of Flood Risk
Mains sewer Cess pit	Is the site within an area at risk of flooding? (Refer to the Environment Agency's Flood Map showing flood zones 2 and 3 and consult Environment Agency stonding and
Septic tank Other	consult Environment Agency standing advice and your local planning authority requirements for information as necessary.)
Package treatment plant	If Yes, you will need to submit a Flood Risk Assessment to consider the risk to the proposed site.
Are you proposing to connect to the existing drainage system? Yes No	Is your proposal within 20 matree of
If Yes, please include the details of the existing system on the application drawings and state references for the	watercourse (e.g. river, stream or beck)? Will the proposal increase the flood risk elsewhere? Yes No
plan(s)/drawing(s):	How will surface water be disposed of?
	Sustainable drainage system Existing watercourse
	Soakaway Pond/lake
	Main sewer
13. Biodiversity and Geological Conservation	14. Existing Use
To assist in answering the following questions refer to the guidance	
notes for further information on when there is a reasonable likelihood that any important biodiversity or geological	The ground floor with is not
Conservation reacures may be present or nearby and whether	used. It bentains farnstwee
they are likely to be affected by your proposals. Having referred to the guidance notes, is there a reasonable	previously used for a lotting area.
likelinood of the following being affected adversely or concerted	Is the site currently vacant?
and enhanced within the application site, or on land adjacent to or near the application site?	If Yes, please describe the last use of the site:
a) Protected and priority species:	
Yes, on the development site	
Yes, on land adjacent to or near the proposed development	
☐ No	When did this use end (if known)?
b) Designated sites, important habitats or other biodiversity features:	(date where known may be approximate)
Yes, on the development site	Does the proposal involve any of the following? If yes, you will need to submit an appropriate contamination assessment with your application.
Yes, on land adjacent to or near the proposed development No	Land which is known to be contaminated? Yes No
c) Features of geological conservation importance:	Land where contamination is suspected for all or part of the site? Yes No
Yes, on the development site	A proposed use that would
Yes, on land adjacent to or near the proposed development No	be particularly vulnerable to the presence of contamination? Yes No
	is inspired of contamination:
15. Trees and Hedges	16. Trade Effluent
Are there trees or hedges on the proposed development site? Yes No	Does the proposal involve the need to dispose of trade effluents or waste? Yes No
And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the	If Yes, please describe the nature, volume and means of disposal
development or might be important as part	of trade effluents or waste
If Yes to either or both of the above you may need to provide a full
