2014/6296/P	Jason Hickel	1st floor flat 22 Greville Rd NW65JA	06/12/2014 10:50:47	OBJ	<p>Please note that the proposed plans include alterations to the side return, which is not within Ms Davidoff's demise. The side return is the common property of all the owners of the building, including my family. Ms Davidoff has made numerous incursions into and alterations of the side return without the consent of the owners, and has even gone so far as to erect a gate debarring the rest of us from accessing the side return.</p> <p>As a member and representative of the family that owns the 1st floor flat in 22 Greville Rd, I object to the plans on this basis.</p> <p>Furthermore, I should point out that the garden area that IS within Ms Davidoff's demise is not at her sole disposal. It is to be shared by the other freeholders, and any infringement on their rights of access to the entire space would be illegal without their consent. I am not a freeholder, so I have not rights to claim on this front. But I am aware that the other freeholders in the building have not consented, and my understanding is that they will refuse to do so. This should be born in mind during the decision process.</p> <p>Thus far, Ms Davidoff has not sought the consent of fellow owners and freeholders for these plans.</p>
