Subject: Objection to Royal Free Development

Hello,

I'd like to officially object to the recent planning application by the Royal Free.

It's clear that the local community and Hampstead Hill School haven't been consulted properly, and I would like to see this project put on hold until everybody has been consulted and the true facts have been established.

I'm not in principle against a research unit, but i do think this is much more than that.

In addition, I feel particularly irritated by the fact that the experience of the Royal Free's core services is so disgusting that they should be focused on rectifying that before they start thinking about expanding.

Many thanks

Andy Partridge
