Dear Charles,

We are writing to voice our concerns and objections to the current plans for a 7 storey expansion of the Royal Free known as Phase 2 of the Institute. App Ref: 2014/6845/P

Being residents of the Belsize community with two small children attending Hampstead Hill School it is very upsetting to find out the true plans of Phase 2. Our greatest objects are in relation to the location, size and disruption it will cause to the community. Although we are in support of medical research we strongly urge these plans be revised in a way as not to upset the community, the school's facility, St. Stephens, and Hampstead Green.

Thank you,

Jessie & Bjørn Schroeder
