

Pandora Road

Sequential Views, Pandora Road, southern side of the street

The orientation of the street means that the upper floors of the taller building will be visible in the background of views B2 to B9. As a result of the topography and the orientation of the existing residential terraces, the amount of the building that can be viewed will be reduced between views B5 and B9. It will disappear in view B10 as a result of the topography, the siting and height of existing development.
