Dear Mr. Thuaire

After having reviewed the above mentioned planning application I would like to stress my horror and disgust with the plans and would like to officially object it.

I don't even know where to start, however given its huge size, how it'll swallow a very important street between pond and haverstock hill, how it'll destroy some green spaces, get rid of tens of parking spaces, cause an internal gridlock due to its increased capacity and less parking space, its difficult position for such a large scale construction and royal free's total silence and lack of communication in informing the community on the needs of such a new space and how they will deal with the traffic during and after the construction and lack of any feasibility studies for the surrounding buildings and traffic, I strongly object the whole proposal Regards Karaca mestci 13a primrose gardens
