2014/5254/P	Robin Makin	75 Woolton Hill Road Liverpool L25 4RD	08/12/2014 14:54:26	COMNOT	<p>I wish to add to the comments that I have previously made in the light of professional advice that I have now received. I am the owner of the adjacent flat at 15 B, West Heath Road, London NW3 7UU</p> <p>I have been advised that there is a distinct likelihood that there could be water-logging of my garden at flat 15B due to the damming effect of the new basement, and the risk of this should be prevented by suitable control.</p> <p>It is suggested that a full hydrological survey and report should be undertaken to ensure any necessary measures to prevent water-logging can be identified and put in place as part of the approval/conditions of the consent.</p> <p>I hope that this can be achieved.</p> <p>Robin Makin</p>
