2014/6278/P	Ben Thompson	Hoot Commercials Ltd 21 Ferdinand Street	09/12/2014 12:45:27	OBJ	As a commercial tenant that shares the same access point as the builders. We have endured a year and ahlaf of hell with generators, cranes and power tools as they developed the adjacent property. This I can understand as it was a renovation and worth while as a land owner. The addition of a small house in the corner of the plot is a gross over development of the space and the land is directly next to our office. The impact will be detrimental to our business and the comings and goings of tradesmen and noise, diesel fumes from lorries and generators will continue to interfere with our work and health in the long run. It also feels a step to far.
