

Application No:	Consultees Name:	Consultees Addr:	Received:	Comment:	Response:
2014/6633/P	Mr A Gadd	Flat 17 Trentishoe Mansions 90 Charing Cross Road London WC2H 0JE	29/12/2014 12:31:12	OBJEMPER	<p>To whom it may concern.</p> <p>I have live on the 5th floor of my address for over 20 years and for the last 7 years have put up with the current condensers & kitchen extract, which are placed against my living room wall and bedroom wall, starting at 7am & finishing at 12pm every day. I would like the committee to deny the application or at the least insist that any further installations are sited away from the adjoining party walls of the council's property. As far as i am aware there are already a number of condensers and 2 stacks adjacent to the party wall which is currently in operation. I note that although there are some condensers near the top floor offices of the building concerned, the current kitchen extracts are kept as far away from them as possible. I understand that living in Camden and with restaurants nearby, some noise and inconvenience is going to occur, but i would hope that the committee would take into consideration the increased noise levels involved in this application. A visit to the site and or my flat may assist you in your deliberations.</p> <p>Please note that although the consultation letter is dated 19th December 2014 I did not receive the letter until 29th December 2014 and therefore it may be difficult for me to contact my local councillors, Cllr Fulbrook, Cllr Olad or Cllr Vincent prior to the committee meeting, for them to be able to assist me in this matter.</p> <p>I have lived in this area all my life and understand that planning committees have difficult decisions to make in regards to the needs of tenants and private companies but I would hope that, at the least,a compromise of siting the condensers and kitchen extract away from the party wall would be acceptable to all parties.</p> <p>Please do not hesitate to contact me on my mobile number if you have any queries about this objection email.</p> <p>Yours sincerely Tony Gadd</p>
