2014/6845/P	Johanna J C Teutscher	11 Pond street Upper maisonette	18/12/2014 18:07:55	COMMEMP ER	My apologies for not writing sooner, but I hope my objections to this planning application will still count. Of course realizing the importance of the Royal Free Hospital I do think however that this new building will cause immense problems with the traffic situation, which at this moment is already very impossible at times, with ambulances stuck in regular traffic jams in Pond street. The second reason for my objection is the residents parking in Hampstead Hill Gardens. Each resident pays for a place, however on many an occasion I had to park a long distance away as at times 20 or more disabled drivers parked in resident bays. The demolition of the existing carpark will not help and the parking situation will become impossible. I point this situation out as I myself have mobility issues. So unless the plans of a new extension will incorporate plenty of disabled parking spaces, I think this application should not be passed
2014/6845/P	Mike Hudson	36 Glenilla Road	22/12/2014 09:24:19	OBJ	The proposed building is too high, would spoil the character of Hampstead Green and remove scarce green space.
