Dear Sir or Madam,

RE: PLANNING REFERENCE 2014/7576/T

I oppose the felling of this tree at 5 South Hill Park Gardens. It is a beautiful tree and is part of the street environment. Part of its current effect is to reduce the view of the surrounding buildings which would become more visible if it were to be felled. The tree is close to the pavement and is part of the view when walking on this part of the street. The character of the street would be diminished as a result of its felling.

Yours faithfully,

G Stephens
