2014/7156/P	Ms Kit Mee Lim	11 Lyndhurst Terrace Flat 9 Newmount	19/12/2014 18:11:47	OBJ	Building in the garden will be an eyesore in a residential and conservation area, especially from my balcony which I use often in the daytime and also in the evening in the summer. There has been much noise from the garden this year between April to October so with the garden office, the noise level would undoubtedly increase with more activity and people using the garden all day, worrying for a residential area
2014/7156/P	Ms J Hayler	2 Newmount 11 Lyndhurst Terrace London NW3 5QA	23/12/2014 12:00:30	OBJ	<p>Dear Sir,</p> <p>I wish to object to this application for a commercial redevelopment in a garden which has many large trees and is overlooked by flats at Newmount, the next door property. Lyndhurst Terrace is in a conservation area and a large single story building would, in my opinion, be totally out of character in the area. The applicant's building is already a large house with many rooms and therefore I do not see why they wish to erect an unattractive building in the garden spoiling the view of next door residents at Newmount, (number 11).</p> <p>The erection of such a building would also cause disturbance to elderly residents in Newmount. If built it would also cause extra noise with people movement between the large house and this office.</p> <p>I hope that my strong objection to this application is considered.</p> <p>Thank you, Sincerely, Ms J Hayler</p>
2014/7156/P	Manuela Eleuteri	31 Willoughby Road London NW3 1RT	15/12/2014 10:31:53	COMMEMP ER	The proposed building is too large relative to the size of the garden and should be downscaled. It is also out of keeping with a conservation area in terms of design and look
