2014/7587/P	Janice Lough	95 Redington Road NW3 7RR	19/12/2014 23:38:29	OBJ	<p>Dear Planning Team</p> <p>Basement excavations are completely unfair on neighbours who have to suffer noise, vibrations, damage , and despair.</p> <p>These excavations are not well suited to NW3 where there are many underground water courses and a combination of clay and sandy soil.</p> <p>Please see the hole that appeared in Redington Road in December 2011 - large enough for a man to stand in. Please see Willoughby Road? where after digging down the builders 'found' an underground stream.</p> <p>Please stop these anti social developments.</p>
