

Subject: 2014/7181/P - objection

Dear Mr. Luxton,

I should like to register my objection to the application for the installation of automated timber sliding gates as a front boundary treatment at 4A North End.

North End is an important rural enclave and conservation area abutting Hampstead Heath. The front boundary treatments are uniformly traditional yellow London brick walls. This creates an important part of the village / rural atmosphere here. The introduction of automated timber sliding gates is completely at odds with the uniform yellow London brick wall boundary treatment and would form a serious negative contribution to this rural conservation area.

Your sincerely,

Nancy Mayo
