2014/7572/P	Charles Loxton	21 Alma St NW5 3DJ	28/12/2014 17:25:25	COMMNT	I object to change of A4 use to A2 use. Kentish Town Road is already too full of estate agents. If Foxtons are simply transferring their business what is happening to the site they currently occupy? From the number of requests received weekly from estate agents desperate for property to sell we already have far more than the area can support. If such change of use is permitted by a loophole that allows it are there any grounds on which it can be contested?
2014/7572/P	A Sweetman	41 alma st	30/12/2014 12:43:40	OBJ	Please deny the application - there's already more than enough estate agents on the high St and Foxtons have a massive office at Camden parkway. Kentish town high St needs to maintain independent stores, quirky shops, a touch of character and not have another estate agents taking up shop. In addition Foxtons are traditionally flashy sales people, aggressive sales tactics and just a bit naff really - would be happier to have them remain off the high street
2014/7572/P	Nathalie Nahai	41 Alma Street Kentish Town NW5 3DH	30/12/2014 12:26:26	OBJ	Please do not grant this application, as there are already so many estate agents on the high street and if Foxtons were to take this property for commercial purposes it would remove business opportunities for other local businesses in the community. Furthermore there is already a large Foxtons 10 minutes' walk away on Camden Parkway so an additional shop in Kentish Town really seems unnecessary. Thanks for your consideration.
