I have family history of asthma. <p>We live right behind this plot and will suffer all the noise and the dust.</p> <ol style="list-style-type: none"> 4) traffic and parking issues will increase after the construction and during it. 5) new use will increase noise levels. 6) our privacy will seriously get impacted as we live right behind the current buildings. If they have any windows at the back , they will be looking right into our homes. 7) the current design and facade fits in with the rest of the locality . We risk altering the character of the locality negatively
