Your comments on the planning application

We are concerned with the removal of the chimney east side roof this would lose the aesthetics and symmetric of the adjoining houses/street and why this is necessary ? in this area of the east roofing a dormer window/roof extension has been applied for,we have concern this may conflict with our privacy as it overlooks our side window straight into our house.and could restrict our sunlight we request more information

With regard to back of house extension planned there is a very large plain tree in our adjoining gardens with the underground roots going into the back of our houses

very concerned any disturbance/destruction of these roots may make tree unstable and possible cause subsidence to the houses full investigation must be undertaken.
We have concern with the scaffolding required on east side along with the dirt and dust over many months security in mind with scaffolding erection is needed along with constant clean up of dirt & dust.
Time scale is asked for from start of full works to completion and the planning of earth & rubble removal i.e is this planned to be with skip in front of house on road with conveyor belt removal of excavation rubble with dump trucks collection each day ? this has shown to cause major traffic flow problems/jams in what is a narrow road already and gives concern to our accessibility to and from our driveway.
