METHOD STATEMENT

PROJECT 80 Guilford St
CLIENT Kiwi Building Services
Works Brick Cleaning

The Brickwork will be cleaned with the use of Therma Tech. The manufactures website is (www.restorativetechniques.co.uk)

The method of works will be as follows.

Brick Cleaning

1. Erect a fully boarded scaffolding which must be completely enclosed within monoflex sheeting.
2. All windows and openings will be covered with clear polythene and sealed at the edges using waterproof tape to prevent water ingres
3. The Brickwork will then be cleaned using Therma Tech.
4. Therma Tech is a superheated hot pressure washer.
5. Starting at the top of the building and working downwards, pass the lance across brick course by course to remove all dust and dirt.
6. This process may need to be repeated depending on the required finish.
7. Upon completion of each lift, the scaffold will be fully washed down to leave in a clean condition.
8. Operatives must be trained and experienced in the use of this equipment.
9. Council to be invited to the site to assess results.

Soot Wash

1. Once the brickwork has dried, mix soot with water, once mixed, apply to the brickwork by brush to give the brickwork an “ aged “ appearance.
2. Repeat process.
3. Council to be invited to the site to assess results.
