APPENDIX H

Background

King's Cross is both a busy road and rail interchange.

To prepare for the London 2012 Olympic and Paralympic Games, we improved a number of junctions in the King's Cross area to make it easier for pedestrians to interchange between rail and other local transport options. Benefits

for other road users were also provided.

As part of the Mayor's commitment to make cycling easier and safer, further interim changes to roads within the Transport for London Road Network in the King's Cross area have been identified in order to improve facilities for cyclists.

Delivering the improvements

Some temporary lane closures will be necessary, however we aim to minimise the impact on local traffic by undertaking this work when the roads are most quiet including evenings, weekends and holiday periods.

In addition, temporary bus diversions may also be required

to undertake some of the improvement work. Where possible, this will be carried out during weekends in order to minimise disruption to bus users.

Work will begin in Summer 2014 and is expected to take approximately five months to complete.

Find out more

We will be holding two drop-in events where you can come and find out more information about our plans. Members of the King's Cross Improvements team will be on hand to answer your questions.

Dates: 4 and 11 March 2014

Time: 16:30 – 19:00

Venue: King's Cross
Neighbourhood Centre
51 Argyle Street
London WC1H 8EF

Safety improvements in King's Cross for cyclists
