2014/7686/P	Vicki Harding	Garden Flat 19 Frognal Lane London NW3 7DB	05/01/2015 13:29:33	COMMNT	<p>I am a little concerned as Existing section A shows a significant tree in the garden along this line, but the Proposed section does not. Also, it is stated that there are no trees within falling distance of the proposed development which is clearly not the case according to the plans which show that there are. This gives some concern about the statement that no trees or hedges will be removed or pruned. Is this also incorrect?</p> <p>Considering the ground floor plans both Existing & Proposed that cover the garden are rather confusing with some tree stems without canopies and tree canopies without stems, different for the Existing and Proposed plans and neither looking like the Google Earth Map, I feel some clarification and an arboricultural report is needed before the landscape part of this application is approved.</p> <p>Vicki Harding Voluntary Tree Officer Heath & Hampstead Society</p>
