It is described in the paperwork as "of low landscape value". I assure you this is not the case as far as Aoife (5) and Frieda (3) are concerned. The tree and the ivy canopy are home to squirrels, song birds, a woodpecker and a couple of magpies (returning each year to nest). Aoife and Frieda spend a lot of time looking out at the tree which is home to a huge amount of wildlife (almost all the wildlife they encounter in their garden).</p> <p>Please give thought to the residents in neighbouring properties and not just the visibility from public areas.</p> <p>Thank you.</p>
