My comments about the planning application consultation

Dear Sir/Madam

First of all i would like to say that i am very happy for Camden Council and always want the best for them.
The change of use from a office to a residential class i would like to know will i be given a one bedroom house to live in?

Also how will i pay the rent the cost of living is rising and for me it will be very difficult to keep up with rent payment.

I think that i feel happy about what Camden Council does and i hope to hear from you soon
thank you for taking the time to read this and i also hope i will benefit from this change although i am a bit worried how will i pay off my bills because of the rebuilding.
