2014/7683/P	Sarah Carrier	37 Dartmouth Park Road	13/01/2015 18:07:59	COMMNT	As a former Parent at both schools and chair of Governors at Parly when la Swap began, I am delighted to support this major development, and sincerely hope it will go through. It is a wonderful opportunity to get rid of the inadequate 1950s building, which was always difficult to heat and maintain,. This will provide further generations of pupils and their teachers with a first class learning and teaching environment, which is what we all deserve. I believe the planning objections can be resolved and the integrity of the surrounding area preserved. The views of the residents of Parliament Hill mansions must be taken seriously and if any action can be taken to allay their concerns it should be done.
