2014/7645/P	margaret caselton	11 Ormonde Court 10-14 Belsize Grove	13/01/2015 14:45:02	OBJ	57 Primrose Gardens is a pretty row of Victorian terraced houses. It is set within a designated conservation area and many of the neighbouring houses are listed. The view over the rear of this terrace from Ormonde Court will be negatively impacted by the installation of UPVC windows to replace the original Victorian sash. This, in my opinion, contravenes the rules of 'conservation' - which is to maintain the character and charm of the neighbourhood not to destroy it for the cheapest possible option. The value of the apartments and homes that back on to Primrose Gardens will be seriously affected as their views will be blighted by this ugly proposal.
