2014/7241/P	Harriet Jones	33 Swains Lane London N6 6QL	15/01/2015 13:51:15	OBJEMPER	We are concerned at the impact of the side dormer in particular on our privacy and view - we live at no 33 Swains Lane which backs on to the side of 2 Hillway. The side of 2 Hillway directly overlooks our house - currently most of the side windows are obscured and so there is limited impact on our privacy. However, the proposed side dormer would impact us considerably. As a minimum this window must have obscured glass - but we would be keen to understand how much intrusion is generally allowed under planning law and how this impacts this application.No 2 Hillway is only circa 60 ft from the back (not side) of no 33 Swains Lane (and neighbouring houses).
