2014/7877/P	Ben Shaw	7 Clifton Hill London NW8 0QE	15/01/2015 16:34:45	COMMEM AIL	<p>I represent the freeholder at 72 Charlotte Street</p> <p>The noise impact assessment states that readings after 1am were corrupted and that a revised report would be presented once these readings had been retaken. However no such report seems to be on the site.</p> <p>The Construbtuion Management plan (3.9) states that "Work is not envisaged" on underground earthworks. This clearly incorrect as a basement is to be dug and this is a fundamanetal part of what should be in the Construction Management Plan</p> <p>No traffic plan appears to have been presented. The Construction Management Plan states that one will be prepared</p> <p>The massing on the revised planning application is considerably more than on the previous planning application and will impact adversely on the light availability at 72 Charlotte Street and yet no light assesmment has been provided</p>
