Site Description

The site is a large auditorium at the heart of a stripped classical freemasons' hall built in 1932. It is grade-II* listed, and is a positive contributor to the Seven Dials Conservation Area. As well as masonic events it hosts public functions.

Relevant History

2013/8249/L (6/2/14), approved, installation of a new bank of organ pipes and alterations to existing organ and external bracing in light well.

Assessment

The applicant produced a sample of gilded woodwork of apparent high quality and good visual match for the existing installations, see two photos below. The detail is therefore approved.

A photograph of a light-colored wooden panel, possibly a door or a large cabinet, with a white label affixed to its lower center. The panel is secured with four screws, one in each corner. The background is dark and textured.
