2014/7261/L	Ian Kerr	Flat 5 1 Holly Terrace Highgate West Hill London N6 6LX	19/01/2015 19:53:58	OBJ	<p>The external gas meter was installed as part of a major renovation of flat 1 carried out by Forelian, a company whose involvement reflected their ownership of the leasehold reversion on flat 1. Their involvement ceased on their sale of Flat 1 on completion of the renovation. The subsequent plan was to return the better to it's internal location at a time convenient to the lessee e.g. on further renovation or sale of the flat.</p> <p>The meter currently situated in an ugly plastic box on the courtyard wall is incontrovertibly a conspicuous eyesore completely out of keeping with the courtyard and Holly Terrace.</p> <p>I understand that there is sufficient depth to the wall to hold a gas meter within it were this to be an acceptable solution. Failing that the meter should undoubtedly be placed internally to the flat to meet the requirement for Grade II listing and our leases.</p> <p>Flat 1 is currently on the market and unoccupied providing an opportunity to relocate the gas meter with minimal inconvenience to the current owner.</p>
