2014/7745/P	Samantha Harrie	flat 7 thurstan dwellings newton st. WC2B 5EP WC2B 5EP WC2B 5EP	18/01/2015 17:51:17	OBJ	We live at 7 Thurstan dwellings Newton St. This is at the end of the road to this Parker St site and VERY close by. Currently, there is two major builds already happening Very close by to us. Parker Tower and also a cinema in a basement also at the end of Parker St. Newton St is a very residential street and another major build very close to us will have a massive effect on our quality of living. Also how will three major builds manage to deliver, air pollution and noise pollution? there is also a primary school one street away. I have a MAJOR objection in terms of quality of life and air / noise pollution to this project.

2014/7745/P	Kevin Logan	7 Thurstan Dwellings Newton street London Wc2B-5ep	18/01/2015 20:40:15	OBJ	There is constant building work in this area. As a local tenant I find this detrimental to my standard of living and I am sick and tired of the lack of consideration shown to local residents regarding the environmental knock on effect of constant and ongoing construction work .
