Traffic in and around Arkwright road is already at a standstill when parents deliver and collect from schools. This project will add to the congestion during the build and when it is completed. The proposed building does not relate well to the existing houses. PLEASE REJECT

2014/7847/P	Rebecca Dahan	71 e Fitzjohns Avenue London NW3 6PD	23/01/2015 10:10:40	OBJ	Hello, we live at 71E Fitzjohns Avenue,parents of 3 children. We very much oppose this project to go from residential to again for education. As you know our small block is surrounded by schools only(Devonshire House,69 Fitzjohns, next door, Fitzjohns Primary School, exactly opposite, ST Anthonys,90 FITzjohns Avenue).The traffic becomes more and more unbearable leaving us residents no where to park. School mothers are non stop parking in our driveways. Fitzjohns Avenue and Arkright Road are constantly blocked. A child was nearly driven over on our driveway, and and my daughter was slightly hit by a car also trying to park in our yard, while she was playing outside. Your project is dangerous. The schools around us, and not even full!!! I would say more living space is demanded in that area, rather than another school! Also can you assure us, that 71 Fitzjohns Avenue's vue will not be affected by erecting a a 3 storey rear extension. Please bear again in mind that the safety of pedestrians will be less guaranteed with more cars parking left right and center around here. We strongly strongly oppose!!!!
