2014/7860/P	Marcus Auton	Flat 14 The Panoramic 12 Pond Street London	18/01/2015 13:26:24	COMMEMP ER	I can not tell from the application on which roof top the dishes are going to be installed. Are the dishes going to be installed on the roof top of the tallest builds or are they going to be installed on the lower roof top on the north side of the building ? If the dishes were installed on the rooftop on the north side of the building, they would be next to the Panoramic block of flats and block out light for these flats.
