2014/7987/P	monica watson	53 Templar House Shoot up Hill London MW2 3TD	20/01/2015 12:32:49	OBJ	Already very noisy at night when people come and play ball games. As a lot of bedrooms on that side and it would be very disturbing. Have already had to call out Camden patrol on more than one occasion. People come from outside the estate and use the existing pitch. This would only encourage more unsocial behaviour. Who wants someone kicking a ball around in the early hours of the morning when you are trying to sleep.
2014/7987/P	Mr Ahmeti	49 template house Shoot up hill Kilburn	18/01/2015 11:55:43	COMMNT	<ul style="list-style-type: none"> - It would lower anti social behaviour - Entice people to stay in one open location as opposed to smaller groups being scattered around the estate. - Increase in area value. - increase safety (many younger people have developed joint problems from prolonged use). - the footpath in question is very unsafe. Kids use that space to hang around (limited space without any safety from on coming cars). - Apart from kids hanging around there, the footpath never used by others even when it is empty.
